TRACTOR
POWER
for You!

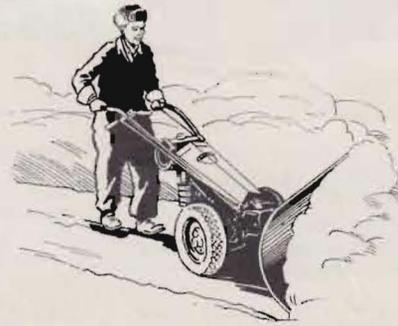

POWER vs. DRUDGERY

www.stevenchalmers.com

Are you still doing most of your garden and upkeep work by hand or horse? Have you figured the cost to you of these expensive and obsolete methods? How much needless drudgery and worry are you forcing on yourself simply because you do not use modern power equipment?

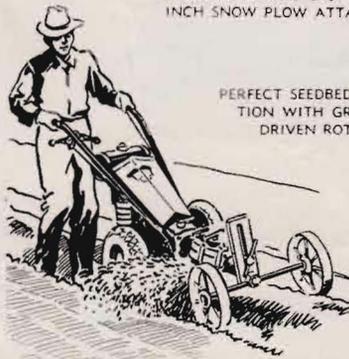

With the right power equipment and methods you save energy, time and money. You increase the efficiency of yourself and your land, and reduce upkeep costs. But the power tools you use must be designed for the job, built correctly, and they must be backed by a reliable service organization.

The GRAVELY is known as the world's finest small tractor because it meets these qualifications. Before you buy any Tractor, consider carefully what you will get. The GRAVELY is designed right, made right... and comparing dollar cost per unit of horsepower you pay less for the GRAVELY!

MOVE SNOW THE EASY WAY—46 INCH SNOW PLOW ATTACHMENT!

GRAVELY SICKLE MOWER CUTS HEAD-HIGH WEEDS AND BRUSH, THICK AS YOUR THUMB!

Will free you from lawn

Why spend day after day of back-breaking drudgery taking care of your home grounds or small farm? POWER does the work when you use GRAVELY Power Equipment! You keep your grounds looking neat. You do your gardening and farming chores quickly and efficiently. With GRAVELY Equipment you do these tasks and still have leisure to ENJOY your home!

Besides the ease of doing these jobs, there is a dollar and cents side to the use of POWER. Whether you are farming for profits, or just growing enough to give your family better and more healthful food and still cut down the grocery bills, your place, properly operated, can afford you and your family financial security. You can

remove some of the uncertainties of worry about your pay check.

You can do this if you are willing to be intensely practical and operate your place with the proper methods—and the proper tools! Since your biggest investment in your future security is your time, invest it wisely by making it count double or triple with GRAVELY Power Equipment!

The powerful 5 Horsepower GRAVELY Tractor is the power unit for a complete system of tools for every upkeep and gardening job. With the GRAVELY you don't spend your money for machines that do only one job. You buy ONE GRAVELY, then select the proper tools from the GRAVELY'S 19 attachments!

PROBLEM 1 Plowing and Cultivating

The power-driven Rotary Plow gives you a perfect, ready-to-plant seedbed in one operation! The GRAVELY Rotary Plow is a totally different plow, proved by 14 years of use. Plows 12 inches deep, 12 inches wide in perfect soils—up to 7 inches deep and 10 inches wide in hard ground. GRAVELY Patented Slip Clutch prevents damage to either Tractor or Attachment if you hit a rock or other obstruction. No tines to break! After your garden is up, attach the front-hitch cultivator—do your garden cultivation the easy GRAVELY way!

PROBLEM 2 Fields, Hay, Weeds to Mow

The GRAVELY Sickle Mower cuts head-high brush, as big around as your thumb. Low center of gravity lets you work on steep slopes—when equipped with dual wheels you can mow on slopes as steep as 60°! Swivel action allows cutter bar to follow ground contour regardless of position of Tractor wheels—gives a smooth mowing job even on rough ground. With the long neck of the front-mounted cutting unit, you get in the close places, under shrubbery, fences, etc. REVERSE allows you to back out under power!

PROBLEM 3 Keeping Your Lawn Lovely

Built to professional mowing standards, with the GRAVELY 30" Reel Mower you mow your lawn without scalping or streaking. You get a smooth, even cut, easily adjust the height. Built in self-sharpener. Floating Reel, plus Slip Clutch, protects Tractor and Attachments from damage in case you hit obstructions. For large areas, attach 25 inch Gang Units for a 72 inch cut. You will be proud of your lawn when you mow it with a GRAVELY Reel Mower!

PROBLEM 5 Hauling Crops, Materials

You always have something to be hauled. How much easier and faster it is with a GRAVELY Transportation Cart! Sturdily constructed, with a capacity of 1/2 ton. Latch Lock allows you to unload it quickly, without effort. Body is 50" by 30" by 10". Easy to steer in tight places, and the powerful 5 Horsepower GRAVELY has plenty of power to take a full load up slopes!

PROBLEM 4 Wood to Saw, Land to Clear

You bring brushland into productive pasture or crop land with your GRAVELY Rotary Saw! Attached to the front of the Tractor, it goes to the job. Two positions, vertical and horizontal. You clear land, cut brush, fell timber, or change to the vertical position and trim trees, cut firewood, etc. Silver Steel blade, of the best quality. Low price, you can pay for it in less than three weeks work cutting cordwood!

PROBLEM 6 Removing Snow

No more worries about hand shoveling snow from your driveway to get your car to the street or road. No more back-breaking labor cleaning the walk so you and your family can walk safely. Instead you clear your walks and drives in a few minutes with the powerful GRAVELY Tractor and its Snow Plow Attachment. You move the snow where you want it moved—no waiting for someone to do it for you! A simple pin adjustment, and you have snow in the same direction on the return trip.

Gravelly Motor Plow & Cultivator Co.,
Dunbar, W. Va.

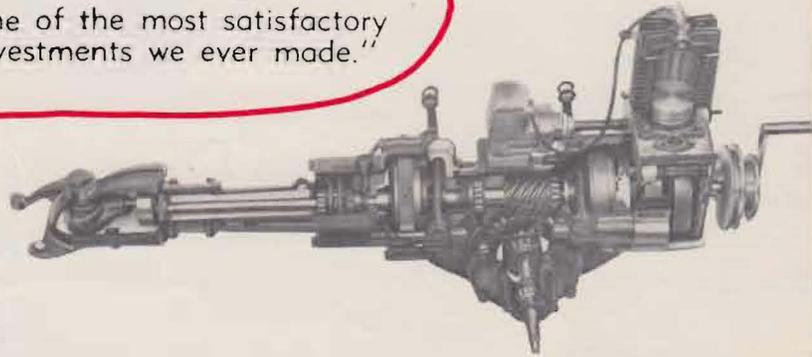

Gentlemen:

I noticed in the current issue of the National Geographic Magazine that you have a new attachment for the Gravelly tractor. Kindly send me a leaflet describing and illustrating it.

We have had a Gravelly tractor for several years and glad to report to you that it's purchase is one of the most satisfactory investments we have ever made. It don't use low we plow, we haul and cultivate our land. Now we are considering buying a saw and hope that, maybe, you have just what we want.

Very truly yours,
J. Frank Moorefield

A USER SAYS—
"One of the most satisfactory investments we ever made."

In this cutaway view of the GRAVELLY you can see the many features that make it the best designed, most powerful 5 Horsepower Tractor! Notice the Roller Bearings at all important points of wear—the steel cut worm gear driving the special alloy bronze gear—all completely enclosed and running in a bath of oil! That means long wear, sturdy, dependable operation under the toughest conditions! All Gear Drive, One spot lubrication, two speeds forward and REVERSE, simple controls, balanced for easy handling—the GRAVELLY is your best buy!
